Heads up about tables:

convert any tables to images first (select table → Copy → Paste Special → Picture) for best fidelity.

• Keep placeholders like [Customer Name] exactly as written — they'll stay mappable.

• Embedded images are imported as inline pictures.

• Fonts fall back to Source Serif if unavailable.

Max file size: 20 MB

DRAFT

ADVANCED

Design principles

Serif only for letters.

Everything the user is authoring prints in serif; chrome is sans. The canvas looks like what will actually go in the mail.

Readiness beats ceremony.

The Merge panel is always visible with a traffic-light checklist. No generation happens without green.

Keyboard first.

`⌘K` opens the library. Arrow keys step through preview rows. Every modal accepts `⌘ Enter`.
